

Theater Medical Data Store Guide

The Theater Medical Data Store (TMDS) is a web-based application used to track, analyze and manage a soldier's medical treatment information recorded on the battlefield. This guide offers instructions on registering to access the system and information on TMDS training.

Accessing TMDS

Only authorized Defense Department and Veterans Affairs health care providers can access TMDS.

The TMDS is available at <https://tmds.tmip.osd.mil> and can only be reached from a .mil domain. Questions about accounts or access can be referred to the 24-hour TMDS Helpdesk phone line (DSN: 312-761-1659/COMM: 703-578-8553) or email (tmds.help@deploymenthealth.osd.mil)

After your registration is complete, the Joint Regional Anesthesia and Analgesia Tracking System can be found under "Pain Management" within TMDS.

Step 1: After accessing the TMDS homepage from a .mil domain, click on the "Click here" link highlighted in this image.

User Registration Form

To request an account complete the information requested below. All fields are required.

Account Information

- First Name:

- Last Name:

- SSN:

- NIPRNET Email:

- DSN / Telephone:

- Service:

- Rank:

- Duty Position:

- MOS/AOC:

- Unit / Command:

- Supervisor's Name:

- Supervisor's Duty Position:

- Supervisor's DSN / Telephone:

- Supervisor's NIPRNET Email:

- Do you work within a Medical or Blood facility? Yes No

- Are you a licensed medical professional or PAD officer? Yes No

Password Format: Your password cannot contain your name, must be at least 15 characters, and must contain a mix of at least 2 lowercase letters, 2 uppercase letters, 2 numbers, and 2 special characters. You cannot reuse any of your 10 most recent passwords.

- Choose a Password:

- Confirm Password:

- Reason for User Account:

Security Acknowledgement

This application provides authorized users the ability to view and/or drill down to a limited amount of patient data. Because of this ability, an appropriate amount of care must be used in accessing, saving, displaying, and disposing of these data and the media on which they are stored and displayed. Those who will access these data are clinical and administrative medical professionals who understand the sensitive nature of this information, but a review of necessary precautions is in order before access can be granted. No information security approach is perfect. However, there are prudent measures that can be taken to ensure due diligence has been applied in protecting patient information.

- References:
 - DODI 5400.11 DoD Privacy Program, August 1983
 - Health Information Portability and Accountability Act, 1996
- Patient identifiable data are covered by the Privacy Act of 1974 and the Health Insurance Portability and Accountability Act of 1996 and must not be discussed or disclosed.
- All media containing or displaying these data must be marked "For Official Use Only" or "FOUO."
- All media containing or displaying these data must be properly disposed of when no longer needed. Documents should be shredded and electronic media should be magnetically wiped or otherwise destroyed.
- These data will be accessed using a web browser. It is imperative that the user understands that web browsers store copies of every file displayed on the personal computer's hard drive. Therefore, if the system (PC if stand-alone and accessing web via modem, LAN if networked) has not been certified as C2 compliant by the local IMO or Information Assurance Security Officer, the user is responsible for deleting these off-line files immediately after viewing or downloading protected information.
 - Internet Explorer: From the Tools menu, choose Internet Options, and then Delete Files. Check the box that says Delete All Offline Content and click OK. Netscape Navigator: Edit menu, Preferences, under Category, choose Advanced, then choose Cache. Click on Clear Memory Cache and then click on Clear Disk Cache.
- I will not share my password with anyone and will immediately change my password if I suspect it has been compromised.
 I have read and agree to the above Security Acknowledgement.

This is a DOD internet system and is subject to monitoring. TMDS v. 2.0-0-2
Comments, questions or bug reports about this system? Email the TMDS help desk (tmds_help@deployment.health.osd.mil).
You can also call the helpdesk: DSN:312-751-1559 / COMM:703-5967555

TMDS Training site

The Theater Medical Data Store maintains a training site that can be accessed through the public Internet. Although the access is via the public Internet, training content is only available to registered TMDS users. The training website can be accessed at <https://tmds-training.akimeka.com>.

Step 1: Sign in to the TMDS using your username and password.

Step 2: Select Pain Management from the TMDS toolbar.
